

CCTV PUBLIC REGISTER

Council has installed CCTV cameras throughout the Bundaberg Region to ensure the security of Council staff, assets, public safety and for crime prevention where anti-social behaviour or criminal activity is more likely to occur.

This register outlines the general location and the number of cameras maintained by Council. Council will comply with all requirements of the *Information Privacy Act 2009* in relation to handling personal information, which includes CCTV footage. Signs have been placed in areas where activity is being monitored.

Information may be provided to law enforcement agencies (for example Queensland Police Service) for law enforcement and investigation purposes.

Footage is retained for a period of 30 days after which it is disposed. Requests for footage can be by making a Right to Information or Information Privacy application to Council. Please contact Council's RTI Team prior to lodging an application if you require assistance. For more information, visit: <https://www.bundaberg.qld.gov.au/cctv>.
